

Hello

It has been a couple of weeks since I was last in contact with you. I trust you are all well and have been able to establish a new routine.

Whilst we are all having to adapt and work in different ways, our '6Cs' - and in particular our focus on community - hasn't changed and this means that you are all still valued members of the Ixworth community. As I hope you all still know, Year 11 are still very much at the forefront of our thinking and so I hope the following is of use to you.

GCSE results

This is a helpful video and summarises, in a few minutes, the next steps around GCSE grades.

Preparation for Post 16 study

If your new school or college hasn't as yet provided with you any reading or bridging courses, below are some suggestions that you might like to explore. If none of this is of interest, do let me know.

1. If you are looking to study Science courses, these CPG Head Start guides are really good and will help you to make the jump between GCSE and 'A' levels. If you would like to buy one and they seem too expensive, please ask your parents or carers to get in touch with me.

Head Start to A-level Biology | CGP Books

This fantastic Head Start book is the ideal way to bridge the gap between GCSE and A-Level Biology. It recaps all the crucial topics you'll need to remember from GCSE, with crystal-clear study notes and examples, plus practice questions to test your understanding. We've also included introductions to some of the key topics you'll meet at A-Level. It's the perfect way to hit the ground ...

Student First Aid - Free First Aid Training for Students in the UK

Wouldn't it be logical if, in addition to learning grammar, science and maths, every student across the UK also learned basic CPR and first aid skills? Well, that's exactly what the free student first aid e-learning programme from ProTrainings aims to do! In 2020, first aid training in schools will become law in the UK.
